prices will enable all to  
take advantage of the  
chance for

# Easter.

ALL AT  
**L.B. KERR & CO., Ltd.**  
IMPOTERS.

Queen Street. Honolulu.

## SOY MAY BE SENT TO OTHER ISLANDS

Board of Health Decides Possible  
Bacilli are Killed by Process  
Of Manufacture.

Reading the list of ingredients of  
Japanese soy one is reminded of the  
three witches' concoction of delicacies  
in Shakespeare's "Macbeth."

There is a soy factory in Honolulu  
conducted by a learned Japanese,  
whose name fails to appear in the ap-  
pended report of the city sanitary offi-  
cer. The report was read before the  
Board of Health at yesterday's meeting  
and it was decided that the manufac-  
turer could ship his goods to the other  
islands inasmuch as all possibility of  
the existence of bacilli in the concoction  
was done away with by the  
thorough boiling process. Dr. Pratt's  
report is as follows:

Complying with your request, I today  
examined the soy factory at the junc-  
tion of Punchbowl street and Pauoa  
road. The ingredients used are now  
kept and mixed in a room about 10x12,  
while the boiling is done just outside  
this room, in the open air. The in-  
gredients of soy are: Barley, beans,  
honey, salt, white sugar and water.  
The sugar, honey, salt and water are  
mixed in certain proportions and sub-  
jected to boiling for four hours. This  
mixture is then strained and put into  
old wine barrels.

The beans, barley and some water  
are boiled for five hours and then put  
into barrels. When enough of these  
two mixtures has been made they are  
mixed together and this compound  
boiled for three hours. After this boil-  
ing is finished it is strained and im-  
mediately put into old wine barrels,  
which are at once corked. It is then  
ready for shipment.

The wine barrels these people are us-  
ing came from W. C. Peacock & Co.,  
Ltd. The barley, honey, salt and white  
sugar were purchased from H. Hackfeld  
& Co. The barrels were washed out  
several times with hot water.

The building now being used for the  
manufacture of soy is too small and is  
so filled up that it cannot be properly  
cleaned. The proprietor says that if  
allowed to make and ship soy to the  
other islands, he will erect a suitable  
building with cement floor and trap  
drain to cesspool and conform to any  
requirement of the Board of Health.  
He says that the present building is  
only used temporarily. It is also his in-  
tention and he has already made ar-  
rangements to have the beans grown  
here. Instead of importing them from  
Japan. He says he is unable at present  
to secure any beans of island growth.  
He is now boiling his mixtures in large  
galvanized iron wash tubs.

## SENDING THE FIRST MESSAGE.

The Privilege Will be Sold at Public  
Auction.

The sale of the privilege of sending  
the first message over the Inter-Island  
Telegraph Company's lines promises to  
afford considerable excitement and di-  
version. At first it was intended to  
invite sealed bids; but this scheme has  
been abandoned in favor of a public  
auction. Mr. Morgan will knock down  
the enviable right to the highest bidder  
on the first day of next month. Time  
and place will be announced later. The  
sale may take place at Mr. Morgan's  
auction rooms, or some out-door loca-  
tion may be preferred. The proceeds of  
the sale will go to some charity, to be  
named by the successful bidder.

It is bound to be a big event, and to  
draw a large crowd. The installation  
of the plant is of itself an important  
matter, and the sending of the first  
message a distinction for which there  
will be keen rivalry. The winner of  
the prize is sure to come in for a deal  
of free advertising in Mainland papers  
as well as in local ones, and the man  
or firm will be looked upon as in some  
sense the representative business man  
of the Islands. Some persons yet liv-  
ing can remember the day when "Knox,  
the Hatter" paid \$10,000 for the first  
seat at the Jenny Lind concerts in New  
York, and what a tremendous boom it  
gave his modest business. The local  
aspirants for a similar advance will  
now presumably begin to count their  
dollars and calculate whether or no  
they can successfully compete with the  
old established business houses.

## COTTAGE ON WHEELS.

Blocked Up King Street and Im-  
peded Traffic.

A novel sight was witnessed on King  
street yesterday afternoon beyond the  
Oahu Railway depot. A cottage was  
being moved to Kalihl, and when Dow-  
sett's place was reached, the house  
took up the entire street space. The big  
steam roller was the motive power, and  
in some manner it jammed the cot-  
tage up against a telephone pole.

The street soon became filled with  
trams, buses, teams and vehicles  
of all kinds, and the blockade was to  
all intents a permanent one, until a  
fence near Dowsett lane was taken  
down and the vehicles were allowed  
to use the new thoroughfare. Before  
the cottage could resume its journey,  
a telephone pole or two had to be lifted  
out.

## New Pauahi Street.

Marshal Brown has plans afoot to  
house the former denizens of Pauahi  
street in Iwilei, near the prison. The  
premises formerly picked out by him,  
on King street in Palama, for this pur-  
pose will not be utilized, as strong op-  
position came from St. Louis College,  
Palama Chapel and Kamehameha  
Schools.

A petition of residents of Palama,  
headed by J. L. Kaulukou, is being cir-  
culated to prevent a new Pauahi street  
from being built up in that district.

Carnegie's spring suits call for large  
checks.—The Baltimore American.

**JAS. F. MORGAN**  
Auctioneer and Broker,  
33 Queen Street.  
P. O. Box 594. Telephone 72

THIS DAY.

**Auction Sale**  
—OF—
